Born: February 22, 1732

Step #6: Use the tools to the right

The screenshot shows the GALILEO database interface with the search results for the article 'Regulating security on the Internet: control versus trust.' by van den Berg, Bibi, and Keymolen, Esther. The article is available in HTML Full Text and PDF Full Text (1.5MB) formats. A red circle highlights the 'Tools' sidebar on the right, which includes options like Google Classroom, Google Drive, Add to folder, Print, E-mail, Save, Cite, Export, Create Note, Permalink, Share, Listen, and Translate.

Regulating security on the Internet: control versus trust.

Authors: van den Berg, Bibi¹, b.van.den.berg@fgga.leidenuniv.nl
Keymolen, Esther²

Document Type: Article

Subjects: Internet security
Information technology laws
Cyberterrorism
Information technology security measures
Internet safety

Author Supplied Keywords: Cybersecurity
techno-regulation
technoregulation
trust

Abstract: This article focuses on the role of government in relation to cybersecurity. Traditionally, cybersecurity was primarily seen as a technical issue. In recent years, governments have realised that they, too, have a stake in securing the Internet. In their attempts to grapple with cybersecurity, governments often turn to technical solutions to -code away- illegal or undesired behaviours. -Techno-regulation- has become popular because it may seem to be an effective and cheap way of increasing control over end users' behaviours and increasing cybersecurity. In this article, we will explain why using techno-regulation has significant downsides and, therefore, why it may be unwise to use it as a dominant regulatory strategy for securing the Internet. We argue that other regulatory strategies ought to be considered as well, most importantly: trust. The second part of this article explains that trust can be used as an implicit strategy to increase cybersecurity or as an explicit mechanism for the same goal. [ABSTRACT FROM AUTHOR]

How to Cite an Article from Galileo

Step #1: Once you're in the article, click Cite under Tools on the right.

The screenshot shows the Galileo database interface. The search bar at the top contains the keyword "Barack Obama". The article title is "Barack Obama. By: Riedinger, Edward A., Salem Press Biographical Encyclopedia, 2019". The database is "Research Starters". The article content includes a brief biography: "Forty-fourth president of the United States (2009–17)", "Born: August 4, 1961", and "Place of birth: Honolulu, Hawaii". On the right side, the "Tools" menu is open, and the "Cite" option is circled in red.

Step #2: Ask your teacher which format to use and then copy/paste the citation on to your Works Cited page.

The screenshot shows the Galileo database interface with the "Citation Format" window open. The window displays a note: "NOTE: Review the instructions at EBSCO Support Site and make any necessary corrections before using. Pay special attention to personal names, capitalization, and dates. Always consult your library resources for the exact formatting and punctuation guidelines." Below the note, the citation information is displayed for the article "Barack Obama" by Riedinger, E. A. (2019). The citation is shown in APA format: "Riedinger, E. A. (2019). Barack Obama. Salem Press Biographical Encyclopedia. Retrieved from http://search.ebscohost.com/login.aspx?direct=true&db=ers&AN=86193733&site=eds-live&scope=site". The citation is circled in red.

How to Find Images on Galileo

Step #1: Search your topic, scroll down, and click Related Images on the right

The screenshot shows the Galileo database search results for the keyword 'dogs'. The search bar at the top shows 'dogs' and the search button is highlighted. The results page displays 'Search Results: 1 - 20 of 2,530,470'. On the left, there are filters for 'Refine Results', 'Current Search', and 'Limit To'. The main content area shows a search result for 'Dogs, wolves, and coyotes' with a description and a link to 'Dogs [electronic resource]'. On the right, there is a 'Related Images' section, which is circled in red. This section contains four small images of dogs: a German Shepherd, a Golden Retriever, a Labrador Retriever, and a Boxer.

Step #2: Click through the images and save

The screenshot shows the detailed record for a German Shepherd Dog image. The image is displayed prominently in the center. Below the image, there is a 'Detailed Record' section with the following information: Source: GETTY, Copyright: © Getty Images, Caption: German Shepherd Dog -- Image Date: 02/10/2000 -- Image Date: 02/10/2000, Subject Terms: GERMAN shepherd dog, DOG breeds, SHEEP dogs, Date: 20000210, and Accession Number: imh213898. On the right side, there is a 'Tools' section with various options: Google Classroom, Google Drive, Add to folder, Print, E-mail, Save (circled in red), Export, Permalink, and Share.
