

## 15 Apps and Websites that Connect with Google Classroom

Below is a list of programs, websites or Apps that are easy to use and will import content directly into your Google Classroom. This may include assignments, content, work for grading, activities and assignments. You simply need to create a teacher account at the respective site and then proceed to import your Google Classroom then you can push out information to your students that will appear in the respective sites portal or dashboard. I will add to this list as I come across them and share one or two each week in my weekly newsletter. You should be able to find activities in every content area to include Science, Math, Reading, ELA and Social Studies.

### Steps

1. Sign up via the link (Choose Sign up with Google)
2. Follow the instructions in the selected site for importing or syncing your Google Classroom
3. Browse and select the items that may meet your content needs to push out to your classes
4. As a bonus: You can also add Apps to Mybackpack from the list below by clicking the plus sign in MyBackpack and typing in the name of the App
